OSIPALLI JWALA PRASAD

Email : jwalaprasad360@gmail.com Contact : **+91 (957)-335-5396**

Career Objective

As a fresher, I want to pursue a career with an organization that will help me explore, achieve and expertise through opportunities and learning, which will help me enhance my skill and ensure organizational success.

Education

- Vignan's Lara Institute of Technology & Science 2020 - 2024
  Bachelor of Technology (B.Tech) in Computer Science and Engineering - CGPA:8.6
- Pragati Junior College 2018 - 2020
  Intermediate – MPC, AP state Board - CGPA:9.9
- Z P P Govt High School 2017 - 2018
  Class X, AP state Board - GPA: 9.8

Skills

- Programming Language : C & C++, Python, Java.
- Web Development : HTML, CSS, Javascript, AJAX, JQuery, Php (Laravel).
- Mobile App Development : React Native.
- Testing : Manual and Postman API Testing.
- Data Visualization Tools : Matplotlib, Power BI.
- Query Language : Microsoft SQL Server.
- Core Concepts : Operating Systems(OS), DBMS, Software Engineering, Data Structures & Algorithms.
- Other skills : Leadership, Teamwork, Adaptability.

Coding Profiles

- GeeksforGeeks : https://auth.geeksforgeeks.org/user/jwalaprasad360/
- CodeChef : https://www.codechef.com/users/jwalaprasad360
- HackerRank : https://www.hackerrank.com/jwalaprasad360

Projects

- **Bird Species Detection Using VGG-16 Algorithm**
  The Project proposes a robust deep learning **BCC.h5** model by using **VGG**(visual Geometry Group)-16 which is a deep convolution neural network for easily **identifying bird species**. By integrating **bird data** alongside species identification, users gain access to extensive insights into recognized avian species, enriching their comprehension of bird diversity and behaviors. Moreover, the incorporation of **bird vocalizations** introduces an immersive element to the project, enabling users to interact with the auditory facets of bird recognition.

- **Life Savers** :
  In this project, we developed a web application which helps people to **donate and receive blood** instantly. The people who are struggling with lack of blood they can easily contact with donors through this website.
  Code : https://github.com/jwalaprasad360/lifesavers

- **Farmer Services :**
  This project suggest farmers in their respective areas. Ex: **Selling crops, lending tools** etc..,The farmers can directly sell their crop to business people without any **third party interaction** through this website. They can get maximum profit. In addition to, another module included in this website useful for tenant farmers. Tenant farmers can easily get crop cultivation tools through this website.
  Code: GitHub - jwalaprasad360/farmerservices

Internships

- **Web Development (June 2022- August 2022) | Techera Organisation**
  Through a combination of lectures, practical exercises and personal project I gained a well understanding of HTML,CSS, javascript and how they are used to create engaging and interacting websites. Learned how to connect application with database.
  Personal projects: Portfolio, calculator
- **Machine Learning (May 2023- July 2023) | IBM Skillbuild (APSCHE)**
  Learned how to load the data, preprocess the data, create a model through these combination of lectures.
  Learned different concepts in machine learning classification, clustering, regression, Decision tree problems etc..,
  Project : BurnOut Analysis
- **Mobile App Development (February 2024-May 2024) | Ethika Insurance Broking Pvt Ltd**
  Learned about React Native Concepts and Worked on real world project.
  Design the amazing screens with react native packages and created dynamic forms.

Certifications

- Programming in Java - NPTEL
- Data Analytics - Google
- Joy of computing using Python - NPTEL
- Programming in C - Sololearn
- Networking Essentials - Cisco Network Academy
- OOPS Concepts - Great Learning

Achievements

- Secured **Rank 16** at GeeksForGeeks in college level.
- Certified by Hackerrank in python.
- Solved over 100+ programs in GeeksforGeeks (jwalaprasad360)
- 2* coder in CodeChef (max rating : - 1488) (jwalaprasad360)

Participation of workshops/Hackathons

- Participated in the National Hackathon conducted by Vellore Institute of Technology (VIT) in Andhra Pradesh.
- Participated in a project exhibition conducted by Vignan university in Andhra pradesh.
- Attended National workshop on Microsoft PowerBI for two days provided by Skill Nation Organisation.

Declaration

I hereby declare that all the information furnished above are true to the best of my knowledge and belief.
